EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with **Kenneth Mitchell** on **10/26/05**.

The application has been amended as follows:

In the claims-

Claim 1: delete the one line 7. claim 1 should read as follows:

....container is received such that the at least one dispensing.....

Specification

2. The interlineations or cancellations made in the specification or amendments to the claims could lead to confusion and mistake during the issue and printing processes.

Accordingly, the portion of the specification or claims as identified below is required to be rewritten before passing the case to issue. See 37 CFR 1.125 and MPEP § 608.01(q). **Page #1 of applicant's specification filled on 9/8/2004 has markings/notes, which are not acceptable. Please provide a substitute copy of page 1 of the specification filled on 9/8/2004.**

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance: As to claim 1, the prior art of record does not teach nor render obvious the overall claimed combination of a **system with "a part of the wall of the chamber is formed as a deformable enclosure within which the container is received such that at least one dispensing aperture is sealed and from which the container can be introduced into the chamber by pressure applied to the external surface of the deformable enclosure"**. Therefore, the invention defined in claims 1-20 is novel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shumaya B. Ali whose telephone number is 571-272-6088. The examiner can normally be reached on M-F 8:30-4:30.
